PROFESSIONAL SUMMARY

Fullstack Developer with 1 year of experience in building scalable applications using the MERN stack.. Previously worked at Masarrati IT Studio as a Fullstack Junior Developer, developing backend APIs, real-time features, and secure data handling. Successfully delivered multiple freelance projects for companies, creating responsive applications from scratch with deployment and SEO optimization. Skilled in end-to-end development with a strong focus on performance, security, and user experience.

EXPERIENCE

Fullstack Junior Developer, Masarrati IT Studio LLP   Jan 2025 – Aug 2025

- Developed and deployed RESTful APIs for multiple roles (Admin, Vendor, Delivery Partner, Customer) using Node.js, Express.js, and Nest.js.
- Implemented RethinkDB for real-time data handling and integrated Firebase for authentication and media storage.
- Built real-time features like order delivery with geographical proximity, and secured APIs with JWT authentication.
- Designed API documentation with Swagger and managed file uploads using Multer for scalability and maintainability.

FREELANCE FULLSTACK DEVELOPER (WEB APPLICATIONS)

Flow Company Ltd.   Dec 2024 – Jan 2025

- Built a custom web application from scratch (www.flowltd-ksa.com) based on client-provided design.
- Integrated Google Firebase for secure data storage and easy management of company records.
- Designed the company profile website and set up 20 professional email accounts for employees using Namecheap hosting.
- Implemented SEO best practices, improving the company's online visibility and search ranking.

City Solutions Contracting Company   Dec 2023 – Jan 2024

- Developed and deployed a responsive company website for a Saudi-based civil construction firm (www.firstom.com).
- Implemented Google Firebase database for secure and efficient user data management.
- Added data entry and management features, improving operational efficiency and user interactions.
- Provided ongoing maintenance and support, ensuring stability and long-term usability.

PROJECTS

Neo Basket – Backend Services (Masarrati IT Studio LLP)   Apr 2025 – May 2025
- Designed and developed backend modules for a grocery delivery application, focusing on Admin Panel APIs such as product reviews, sales reports, and inventory management.
- Built APIs for delivery partner proximity-based parcel assignment, ensuring efficient order delivery.
- Tech stack: Node.js, Express.js, Nest.js, RethinkDB, Firebase, Socket.IO, Swagger.

PrintEx – Doorstep Document Printing Service (Ongoing Startup Idea)   Aug 2025
- Conceptualized and developed a document printing application with doorstep delivery, ensuring user privacy and convenience.
- Built Customer Panel (document upload, order tracking) and Admin Panel (document management, status updates, delivery management).
- Integrated AWS S3 storage for secure document handling, with auto-deletion policies to maintain privacy.
- Designed and implemented order workflow APIs and delivery tracking system, enabling smooth end-to-end operations.

SKILLS

Languages/Databases:
C Language , Java, Python, My SQL, Rethinkdb, MongoDB, No SQL, Google sheets.

Course Work:
Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Blockchain

Web development & Tools:
HTML, CSS, JavaScript, React, Bootstrap, Figma, Node.js, Express.js , tailwind Css, Swagger, Docker

Soft Skills:
Leadership, Teamwork, Problem-Solving, Adaptability.

EDUCATION

Lords Institute of Information & Technology
Master of Engineering, CSE

Hyderabad, Telangana
Expected 2026

Muffakham Jah College of Engineering
Bachelor of Engineering, CSE

Hyderabad, Telangana
CGPA: 8.01/10 | 2020 - 2024

SR Junior College
Board of Intermediate, MPC

Nizamabad, Telangana
Score: 92.3% | 2018 - 2020

Vijay High School
Secondary Education, SSC

Nizamabad, Telangana
GPA: 9.3/10 | 2017 - 2018

CERTIFICATIONS & ONLINE LEARNING

Great Learning
Html , Css, JavaScript,
